

POSITION ANNOUNCEMENT

Applications are invited for three postdoctoral positions in high energy theory at Texas A&M University. We are seeking applicants who are working on topics including, but not limited to, dark matter and neutrino physics, model building, phenomenology, collider physics. The successful applicants are expected to collaborate with faculty, postdocs, and students in ongoing programs at Texas A&M University. The initial appointment for each position is two years, with an additional year contingent on performance and funding. The position includes competitive benefits through TAMU; see <http://employees.tamu.edu/employees/benefits/> for details.

Selected candidates must provide official proof of completed PhD or equivalent degree requirements by July 1, 2015. Electronic submissions (.pdf files) are required. Interested applicants should send CV, list of publications, and summary of research accomplishments and interests to Academic Jobs Online at <https://academicjobsonline.org/ajo/jobs/4864>. Candidates should also arrange for at least three letters of recommendation to be sent electronically to the same address.

Review of applications will begin December 1, 2014. Complete applications received by this date will receive full consideration. Positions to remain open until filled. TAMU is an Affirmative Action/Equal Opportunity Employer, and we especially encourage applications from women and members of minority groups.
