- NOTES:
1. A physics major must complete the foundation courses (PHYS 101, 102, 207/226, 207/227, 221, 309, 331, CHEM 107/117, MATH 171, 172, 221, 308) with a grade of 'C' or better before taking non-foundation upper-level physics courses.
 2. Any course in this category from the approved University Core Curriculum list of courses.
 3. Any approved Communication course, except THAR 407.
 4. PHYS 327 is an approved W course. PHYS 328 is an approved C course.
 5. Any upper-division course within the College of Science, College of Geosciences or College of Engineering (except 485/491).
 6. Electives should be chosen in consultation with the student's advisor. Three hours must be in the area of International and Cultural Diversity, and three hours must be in the area of Cultural Discourse. These may be in addition to other University Core Curriculum courses, or, if a course in this category satisfies another area of the Core, it can be used to meet both requirements.
 7. A combination of ASTR 291 and ASTR 491 must equal 3 hours. Students with U1 or U2 classification should take ASTR 291. Students with U3 or U4 classification should take ASTR 491.
